PROFESSIONAL SUMMARY

Entry-Level Software Engineer and 2025 IT graduate with hands-on experience building full-stack web applications. Proficient in Java, Spring Boot, React.js, and SQL, with a solid foundation in Data Structures, Object-Oriented Programming (OOP), and RESTful API design. Adept at Spring ecosystems to develop scalable software solutions. Actively seeking a fresher/entry-level software development role.

TECHNICAL SKILLS

Languages:	Java, JavaScript, SQL, HTML5, CSS3
Frameworks & Libs:	Spring Boot, React.js
Databases:	MongoDB, MySQL, Supabase
Core Competencies:	Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), RESTful Web Services, MVC Architecture, Software Development Life Cycle (SDLC)
Tools & Platforms:	Git, GitHub, VS Code, Postman, Netlify

PROFESSIONAL EXPERIENCE

EESAN IT SOLUTION | Full Stack Web Development Intern Feb 2025 – Apr 2025

- Engineered responsive, dynamic user interfaces using HTML5, CSS3, JavaScript, and React.js to improve cross-browser compatibility.
- Developed robust backend services and REST endpoints using Node.js and MongoDB.
- Implemented secure user authentication workflows utilizing JWT and OAuth protocols.
- Managed application deployment and hosting pipelines seamlessly on Netlify.

TECHNOTANET SERVICES | Web Development Intern Jun 2024 – Aug 2024

- Developed end-to-end full-stack projects using the MERN (MongoDB, Express, React, Node) stack architecture.
- Created scalable RESTful APIs and integrated GraphQL queries to optimize client-side data fetching efficiency.
- Collaborated closely with cross-functional teams to analyze complex business requirements and translate them into highly technical software solutions.

TECHNICAL PROJECTS

Grocery Delivery Platform

Mar 2025

Tech Stack: Java, Spring Boot, MongoDB, React.js

- Designed and built a complete full-stack e-commerce solution featuring persistent shopping carts, secure user login, and high-performance real-time search functionality.

Quotes Blog Site

Sep 2024 – Mar 2025

Tech Stack: React.js, Supabase, Java, SQL, Tailwind CSS

- Developed a content-driven blog platform using React for the frontend and integrated Supabase for managed backend and relational database capabilities. Successfully deployed the production build to Netlify.

Payroll System

Jan 2023

Tech Stack: Java, Spring Boot, Spring Batch, MySQL, Postman

- Built an automated enterprise data pipeline utilizing Spring Batch to handle, transform, and ingest large-scale .csv files into a MySQL database. Implemented robust Exception Handling and thoroughly tested REST APIs via Postman.

Clothing Store Website

Jan 2023

Tech Stack: React.js, HTML5, CSS3

- Created an interactive front-end storefront application deployed seamlessly on Netlify.

EDUCATION

Paavai Engineering College | *B.Tech in Information Technology*

Nov 2021 – May 2025

Relevant Coursework: Data Structures & Algorithms, Database Management Systems (DBMS), Artificial Intelligence (AI), Systems Programming.

LEADERSHIP

Sri Ragavendra School | *School Pupil Leader*

2019 – 2021

- Directed the student council body, organized campus-wide events, fostered student participation, and coordinated directly with school management executives.
